

Green Group Report to the Parish Council Meeting 11th January 2023

Village Warm Space

The village warm space is an initiative supported by several village groups and is similar to community warm spaces being offered in many other towns and villages across the country. There were two sessions held as a trial at the end of October and November, and thanks to a generous donation to cover the cost of hiring the village hall, a further four will be held on Mondays throughout January (see attached information). Tea and coffee are provided as well as a hot soup lunch.

Almeley Village Hall during January

**an opportunity for a chat
over tea or coffee
& delicious homemade
soup & bread**

Mondays
9th 16th 23rd 30th
11.00 – 13.00

All welcome, children included

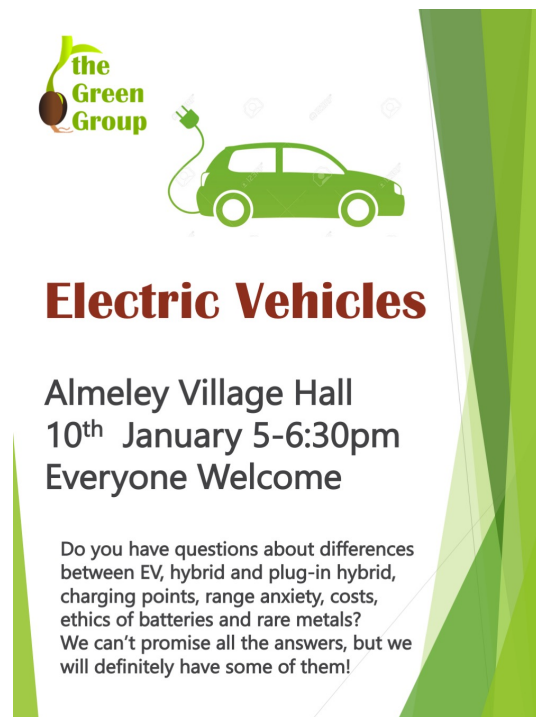

no charge, but donations
towards costs welcome
and surplus funds to local charities

Winterproofing for homes

The Herefordshire Green Network Building Sense Team recently secured a grant to provide a range of winterproofing materials to a number of community groups across the county. Almeley will be the first to trial this, and will have a small supply of materials to offer with advice to households in the parish. We will be using the warm space events to share more information about this and to show residents easy things to do to improve home energy efficiency.

Electric Vehicles

will be the topic of our January meeting (10th January 5pm, Village Hall, details attached).

Parish Council Climate Action Plan

We are pleased that the informal meeting went ahead this week and look forward to the next steps in the process.
