Almeley Parish Council, Environment Working Group
Action Plan 2024 – Climate, Biodiversity & Resilience

Actions fall into one or more of three impact areas:
Climate – actions are focussed on reducing carbon footprint in areas such as energy, transport, food, & waste.
Biodiversity – actions are focussed on improving the different habitats in the parish such as woodland, grassland, orchards & ponds.
Resilience – actions that help the community to prepare for and adapt to future conditions such as extreme weather events.

	Item	**Area of Impact**	**Action**	**Outcome**
1	Add Environment tab to parish council website	All	APC	Agreed
2	Propose village Speed limit of 20mph	Climate/Transport	APC	Agreed
3	Feasibility study for Solar panels for Village Hall	Climate/Energy	Green Group	Agreed
4	Biodiversity Plan for some Parish Commons (rank the 8 Almeley Commons for suitability of bio-diverse enrichment, eg as species-rich grassland)	Biodiversity/Grassland	APC/Green Group	Agreed in principle Recreational use must be balanced against desire for increased biodiversity. Expert advice to be sought.
5	Sandbags for Parishioners	Resilience/Flooding	APC	Agreed

Approved 17 January 2024
